6	floor	14	vocal	22		30	
7	OH L	15		23		31	
8	OH R	16		24		32	

NOTES

The track comes on balanced XLRs, no DI boxes are needed. XLR drop between drums and bass amp. The lead singer (Charmaine) uses in-ears. XLR with her monitor feed is needed at the same location as the track. Stage monitors are mainly for vocals and track. We may ask to add other instruments to monitor mixes during the line check. FOH: please make sure that the track is loud and present in the mix. Singer uses FX pedal board so all vocal reverbs and delays will be coming from it. She brings her own M80. Please provide straight mic stand.
